## Mission Statement

'Learning for the Future'

## Vision

We will all work together in a caring environment where tolerance, respect for others and a readiness to listen are essential. We will value each pupil putting them at the centre of education. We will seek to nurture their academic, creative, emotional, physical and spiritual needs; enriching their lives and preparing them for the future.

A Three Year School Development Plan is in place to ensure that a proactive approach is taken to self evaluation and improvement in all areas of school life.
